## Five days Online Workshop on Emerging IT Technologies May 29 – Jun 02, 2020

Professional industries, providing placement opportunities in the domains of Software Development, Banking, eCommerce, Healthcare and Education has been revamped and restructured with the involvement of emerging technologies. These latest technologies changes the way we work or code. Staying up to date on the latest technology trends always provide an edge to the students by imparting them a better understanding of their chosen industry and makes them a more competitive candidate.

The Department of Computer Science and Engineering, Motilal Nehru National Institute of Technology Allahabad, proudly announces the long-awaited workshop on Emerging IT Technologies. This multi-dimensional workshop shall cover latest technology trends which encompasses topics like Machine Learning, Data Engineering, DevOps, Blockchain, Cyber Security, Advancements in Frontend Development, Internet of Things, Hybrid Mobile App Development, Industrial Cloud Architecture, Salesforce Development, Data Pipelines and Apache Spark.

During this **5 days** online workshop the participants shall get a chance to understand the theoretical and practical foundations of the afore mentioned emerging technologies which are supposed to be known by a computer science graduate particularly planning for placements. The interactive and informative sessions would be delivered by the eminent MNNIT Alumni and other software industry professionals who are developing and working on cutting edge technologies.

**Patron:** Prof. Rajeev Tripathi, Director MNNIT Allahabad.

**Conveners:** Shashank Mishra, Data Engineer, Amazon India (MNNIT Alumni).  
Rishabh Agarwal, Software Engineer, Citrix R&D (MNNIT Alumni).

**Coordinators:** Prof. Anil Kumar Singh, CSED, MNNIT Allahabad.  
Dr. Divya Kumar, CSED, MNNIT Allahabad.
